SUMMARY

AI Product Manager (MS, AI in Business, STEM, Simon Business School). Ships replicable, deployable AI atoms on **Claude Code**: forward-deployed discovery, precise PRDs, ruthless prioritization. At ESC as first AI hire, owned **Maya AI** live in **2.5 months** at a **200K-resident utility** and spun off **VaultIQ**, an air-gapped Claude Opus product inside the customer VPC. Two prior exits totaling **\$575K** with **\$5M+** enterprise deals influenced. **Drawn to Sarvam because Chanakya's "replicable, deployable AI atoms for defence and enterprise" is the pattern I have already shipped: VaultIQ (air-gapped), Maya AI (multi-tenant agent), Conference Outreach (agentic workflow).**

PROFESSIONAL EXPERIENCE

AI Product Manager ESC Partners

January 2026 to Present
Rochester, New York

- **Spun off VaultIQ as an air-gapped Claude Opus atom**: a financial intelligence platform running **inside the customer VPC** with no data egress. Multi-tenant access controls, SSO, role-based permissions on Postgres with pgvector. The on-prem reflex Chanakya's defence and regulated clients demand.
- **Owned Maya AI end-to-end as the first AI hire**: an autonomous agent atom on Oracle CCS for a **200K-resident utility**. Forward-deployed discovery with utility supervisors; PRDs engineers call "clear and free of assumptions." **26-language voice** via 11 Labs; **70 to 80%** autonomous on first-touch; **~\$225K/month** projected savings.
- **Ran the eval and prioritization discipline**: confidence, sentiment, and takeover frequency as SLOs across **RAG, agentic, and intent-classification** patterns. Bedrock routing across Claude Opus, Sonnet, Nova; new models gated through two-week shadow channels before each rollout.

AI Product Consultant Senior Assisted Living Locators

October 2025 to January 2026
Remote

- **Shipped an AI recommendation atom** for **5 advisors** processing **300+ weekly consultations**, matching senior families to **250+ communities** in under **2 seconds**. **8-factor scoring with two-phase pre-filter** cut **API costs ~70%** while keeping recommendations consistent.

AI Product Management Intern Vollie, Inc.

May 2025 to December 2025
Buffalo, New York

- **Owned the 0-to-1 MVP** of a voice AI coaching platform as **sole PM**. Landed the **first paying client (30 employees)** and triggered a seed funding milestone. Closed-loop voice engine with real-time transcription, sentiment and commitment scoring, auto-generated reports, and a privacy-first data model.

Co-Founder CloudApproach and Approachables (Acquired)

July 2019 to March 2024
United Kingdom + MENA

- **Bootstrapped and exited two ventures** across UK and MENA: **\$575K combined**, **95%** post-acquisition retention, **200+** agency clients, **80+** real-estate partners, **\$5M+** in deals influenced on a **\$200K** marketing budget.
