SUMMARY

AI Product Manager/Engineer (MS, AI in Business, STEM, Simon Business School). Owns AI product areas end-to-end on **Claude Code**: writes the spec, writes the code, ships weekly, watches the SLOs. At ESC as first AI hire, owned **Maya AI** live in **2.5 months**: an autonomous agent on Oracle CCS for a **200K-resident utility**. Two prior exits totaling **\$575K** as co-founder. **Drawn to Sarvam because the full-stack sovereign-AI charter (consumer, enterprise, developer tools, speech, edge) maps directly to the product spread I already ship: Maya AI, SALL recommendation engine, Career-Ops developer harness. Every one owned without layers and shipped weekly.**
