PROFESSIONAL EXPERIENCE

AI Product Manager

January 2026 – Present

ESC Partners

Rochester, New York

- **Built two-sided routing for Maya AI** — Oracle CCS overlay matching customer intents (one side) to autonomous capabilities (the other) across **voice, chat, SMS, email, mobile**. Confidence-scored intent classifier feeds an **AWS Bedrock** model-routing layer (Opus / Sonnet / Nova) with HITL fallback. Live at **NEP (200K+ residents)**, rolling out at Moreno Valley Electrical, piloting at Delta Utilities; **70–80%** first-touch resolution; **~\$225K/mo** projected savings.
- **Ran model-routing experiments at production scale** — A/B-compared Bedrock variants on confidence-scored intents to balance accuracy, latency, and cost; iterated rubric vs. supervisor calibration; published per-intent dashboards. Built end-to-end as **sole AI hire** in **2.5 months** using **Claude Code** daily.
- **Shipped supervisor cockpit with HITL takeover** — real-time sentiment, performance tracking, one-click human takeover so non-technical managers stay in control; **26-language voice** via 11 Labs; **17 admin APIs** for tenant onboarding; 24-hour key rotation; multi-tenant DynamoDB governance.

AI Product Consultant

October 2025 – January 2026

Senior Assisted Living Locators

Remote

- **Built a two-sided matching marketplace** — paired senior families with **250+ communities** across **300+ weekly consultations**. Designed **8-factor ranking** with **two-phase pre-filter** (cheap heuristics prune 250+ → ~30, then LLM ranks). Cut API costs **~70%** while keeping match latency **<2s** with real-time voice transcription + CRM integration.

Graduate AI Product Intern

January 2025 – December 2025

Ain Center for Entrepreneurship and Innovation, University of Rochester

Rochester, New York

- Shipped **VentureForge**, an AI strategy simulation for **50+ MBA students** and self-serve validation tooling for **200+ founders**, replacing **\$25K/year** in licensed tools and cutting mentor prep time by **75%**. Iterated AI scoring rubric against faculty calibration — the human-in-the-loop experimentation discipline.

AI Product Management Intern

May 2025 – December 2025

Vollie, Inc.

Buffalo, New York

- **Owned 0-to-1 MVP** of voice AI coaching platform as **sole PM**; landed **first paying client (30 employees)**, triggered seed-funding milestone; designed closed-loop voice engine with real-time transcription, sentiment + commitment scoring, auto-generated reports; privacy-first data model.

Co-Founder

July 2019 – March 2024

CloudApproach and Approachables (Acquired)

United Kingdom + MENA

- **Operated supply and demand sides of two ventures** — scaled supply to **200+ agency clients** and **80+ real-estate partners**; ran **\$200K** marketing/automation budget on the demand side, influencing **\$5M+** in closed deals. Sold both for **\$575K combined** (\$325K + \$250K) with **95%** post-acquisition retention.

EDUCATION

Simon Business School, University of Rochester

New York

Master of Science in AI in Business (STEM-Certified)

December 2025

Vice President, Masters Advisory Council; Simon Strong Community Builder Award. McKinsey Forward Program (McKinsey & Company), 2026.

University of Central Lancashire

Preston, United Kingdom

Bachelor of Arts (Honors), International Business and Management

May 2020

PROJECTS

- **Career-Ops Pipeline**: Daily Claude Code harness automating end-to-end AI job search — a **ranking + recommendation surface** scanning 45+ portals (Greenhouse / Ashby / Lever APIs at zero LLM cost), evaluating and scoring JDs, generating tailored CVs, tracking applications. Open-source. The user persona dev-tools and marketplace PMs are building for.
- **VaultIQ**: Air-gapped financial intelligence platform running **Claude Opus on AWS Bedrock** in customer VPC; **Postgres/pgvector** retrieval; **Terraform-defined** customer install for reproducible per-customer onboarding; SSO + RBAC. Compliance-grade AI without data leaving the boundary.

SKILLS

Product Management: 0-to-1 Product Strategy, Marketplace Dynamics, Two-Sided Onboarding, Matching / Ranking Systems, Recommendation Systems, A/B Testing, Experimentation, Roadmap Across Multiple Surfaces, Customer Partnering, End-to-End Ownership, Founder Mindset, PRDs, Prioritization (RICE, MoSCoW).

AI & Stack: Claude Code, Agent Orchestration, AWS Bedrock, Claude (Opus, Sonnet, Nova), Prompt Engineering, RAG, Intent Classification, Confidence Scoring, HITL Design, FastAPI, React, Next.js, Python, n8n, Postgres/pgvector, Terraform, 11 Labs Voice.
