PROFESSIONAL EXPERIENCE

AI Product Manager/Engineer **January 2026 – Current**
ESC Partners (Hometown Hub) **Rochester, New York**

- **Built the full AI operating layer for Maya AI** on Oracle CCS — agentic platform unifying voice, chat, SMS, email, and mobile that autonomously executes account, billing, payment-plan, and outage workflows; handles **70–80%** of first-touch volume across every channel.
- **Ran customer discovery with utility supervisors and CSRs** — observed live workflows, converted ambiguous legacy scripts and outage protocols into user stories and acceptance criteria, and translated qualitative pain into the confidence-scoring model that powers HITL escalation in the supervisor cockpit.
- **Made architecture trade-offs end-to-end as the only AI hire** — AWS Bedrock model routing (Opus/Sonnet/Nova), multi-tenant DynamoDB with **17 admin APIs**, real-time React cockpit; spun off **VaultIQ**, an air-gapped Claude Opus + Postgres/pgvector intelligence platform inside the customer VPC; shipped end-to-end in **2.5 months**.

AI Product Manager/Engineer **October 2025 – January 2026**
Senior Assisted Living Locators **Remote, California**

- **Built an AI recommendation product for 5 senior-care advisors** processing **300+ weekly consultations**, matching families to **250+** community options in under 2 seconds — spent 40+ hours observing advisor workflows before designing the data model and UX.
- **Designed an 8-factor scoring algorithm** combining business rules with AI analysis to rank communities by budget, care needs, and proximity; cut API costs **~70%** via two-phase pre-filtering with real-time voice transcription on every advisor intake call.

AI Product Manager/Engineer **May 2025 – December 2025**
Vollie, Inc. **Buffalo, New York**

- **Owned 0-to-1 MVP** of voice AI coaching platform as **sole PM**; landed the **first paying client (30 employees)**, triggered a seed-funding milestone, and ran concept-through-launch end-to-end.
- **Designed a closed-loop voice engine** with real-time transcription, sentiment and commitment scoring, and auto-generated reports — peer accountability without a live human facilitator.

Founder **July 2019 – March 2024**
CloudApproach and Approachables (Sold) **United Kingdom + MENA**

- **Bootstrapped and sold two ventures for \$575K combined** with **95%** post-acquisition retention; managed a **\$200K** marketing budget influencing **\$5M+** in closed deals across UK and MENA; aligned **200+** agency clients and **80+** real-estate partners on roadmap priorities.

EDUCATION

Simon Business School, University of Rochester **New York**
Master of Science in AI in Business (STEM-Certified) **December 2025**

Leadership: Vice President, Masters Advisory Council & Simon Strong Community Builder Award.

University of Central Lancashire **Preston, United Kingdom**
Bachelor of Arts (Honors), International Business and Management **May 2020**

PROJECTS

- **Career-Ops Pipeline:** Build-first AI job-search platform on Claude Code — scans portals, evaluates JDs, generates tailored resumes, tracks applications end-to-end. Built and used personally daily.
- **City of Rochester — Fraud Detection ML System via Simon Vision Consulting:** Built explainable ML model (XGBoost, SHAP) for loan-officer decision support; lifted accuracy from **62% → 73%** while improving review-staff transparency on every flagged case.

SKILLS

Product Management: 0-to-1 Build-First PM, AI-Native Product Development, Customer Discovery, Workflow Observation, User Stories & Acceptance Criteria, SME Interviews, Stakeholder Alignment, Roadmapping, PRDs, Prioritization (RICE, MoSCoW), Agile/Scrum, GTM, Experimentation.

AI, Platform & Data: Claude Code, AWS Bedrock, Claude (Opus, Sonnet, Nova), Prompt Engineering, LLM Evaluation, RAG, HITL Design, Postgres/pgvector, Terraform, FastAPI, React, Next.js, Python, SQL, Oracle CCS, REST/OpenAPI.
